MEMORANDUM FOR : C/CI

**SUBJECT : Review of World Press for Information
on Intelligence Activities**

1. Regarding your recent note about press coverage, the two problems for CI/R&A to solve are getting the right coverage and processing the result. As your note said, the best way to tackle the first problem seems to be to task the field. I shall submit a draft book dispatch for your approval. The other half, the processing, can in our opinion best be handled by expansion of the TPMURILLO project. As you know, this group already has secure space, safes, and the other logistical requirements. This approach permits us to start modestly, in accordance with the present language skills of the team, and to grow as we acquire personnel who augment those skills. The machinery that now produces CD memos and the overt printout can also produce memos for you, the DC/CI, and CI/OPB. At the same time our input into Soviet GICS would increase.

2. () has just learned that SB is shopping (C), who has Serbo-Croatian, Slovene, Russian, German.
